- ♦ About 53 percent of the resident population 16+ years old worked in 2008.

- ♦ More workers were employed as Operating Engineers and Other Construction Equipment Operators than any other occupation.

Please note: There is an important distinction between the local/regional employment data and our "standard" employment series. Most of these data reflect totals for area residents only. Total worker counts may be lower than expected in areas with a large number of nonresident workers. The Alaska Permanent Fund dividend file is used to determine the worker's geographic residence. Only Alaska residents (as defined by PFD application) are included in these totals. Also note that federal employees, the military, and the self-employed are not included in these data.
